The investor performance may differ as a result of advisor fees (where applicable), actual investment date, date of reinvestment and dividend withholding tax. Past performance is not necessarily a guide to future performance. The lowest and highest returns show the lowest and highest consecutive 12 month return experienced since inception.

The differences not only lie within the investment approach but also: Trading – ETFs are listed on the JSE, Transparency – You know exactly what shares the ETF holds, Fees and minimum investment differs between the funds, ETFs take a passively managed approach whereas active Unit Trusts focus more on an active strategy.
